# HQ- RESIN CLEAN

## RESIN CLEANER FOR IRON AND LIME

HQ-Resin Clean is a powerful cleaner specially developed for HQ water treatment systems and HQ resins. Thanks to its highly concentrated acid blend, HQ-Resin Clean not only removes contamination but also eliminates bacteria that can accumulate inside the system. This results in improved water quality and a more efficient rinsing process. HQ-Resin Clean is easy to use, has no unpleasant smell, and ensures that the entire system – including the rinse head and brine tank – is clean and operating efficiently. Regular use extends the lifespan of the resin and guarantees consistent water quality.

### MODE OF ACTION

HQ-Resin Clean thoroughly cleans the resin in HQ-Delroning and HQ-Descaling installations and removes accumulated deposits. The cleaning restores the flow and exchange capacity of the resin, ensuring that the installation continues to function optimally. The brine tank and rinse head are also automatically cleaned during use.

### BENEFITS

- Effectively removes iron and lime deposits
- Cleans and maintains the resin, rinse head, and brine tank
- Targets bacteria during the rinsing process
- Improves the performance and lifespan of the installation
- Easy and safe to use
- No unpleasant odor
- Suitable for both domestic and professional use

### APPLICATION (FOR HQ INSTALLATIONS ONLY)

#### Household water softners:

1 cleaning per quarter is sufficient.

#### Iron removal systems for garden irrigation:

Clean at the start and end of the season. During the season, apply at least every 2 months; monthly in cases of intensive use.

#### Industrial applications (agriculture, car wash, etc.):

Clean monthly, especially when large volumes of water are used daily.

#### Recommended dosage:

1 kg of HQ-Resin Clean per 25 liters of resin volume in the system.  
(Check the label on the resin tank to determine the resin volume.)

**CAUTION:** Use HQ-Resin Clean exclusively for HQ-Water Treatment systems.

Applying it to other systems or installations may cause damage or reduced performance.

### USE SAFELY — READ THE LABEL AND PRODUCT INFORMATION BEFORE USE
